5. Clarity, Grammar, Punctuation and Use of Plain Language

a. The agency may wish to review s. PI 35.05 (4n) to clarify the number of private schools included in the calculation. Specifically, the rule is not clear with regard to schools that are required to report information by October 1, but for some reason do not submit the information until after that date. It may be advisable to avoid this result by providing the calculation will be based on the “number of private schools that are required to submit the information required under s. PI 35.04 (6) by October 1.”

b. An initial applicability provision could clarify when the fee required under the permanent rule will first be due.
